THE RELENTLESS PURSUIT OF PERFECTION

Riding pleasure starts long before you get onto your motorcycle. Because when you know your safety is taken care of, you're free to enjoy the buzz of anticipation whenever you suit up for the next journey. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents the unwavering commitment to **safety, innovation, comfort and quality** that goes into designing every item.

Whether we're talking about the new, hard-wearing materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish. All our products are the result of years of research and development and only receive the C.A.R.E. seal of approval when they meet BMW Motorrad's exacting standards, which are far more stringent than CE and EU road safety norms. We want you to enjoy riding your motorcycle – and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at
bmw-motorrad.com/care

SAFETY

Safety is the number one priority when out on the road. And this doesn't just apply to the bike itself – it means having the right protective clothing, too. When riders take to the tarmac, they're completely exposed, and there's a lot going on around them. They need to be prepared for anything that comes their way. That's why safety is one of four C.A.R.E. criteria, and central to the development of our rider equipment. Every last detail is subject to intense scrutiny to ensure comprehensive protection.

We take great care in ensuring that our products are compatible with one another. Whether you go for a BMW Motorrad jacket, trousers and helmet, or combine several other products, each item must function as part of a single protective unit that leaves no part of the body vulnerable.

On all of our trousers, jackets and suits, those areas most at risk in the event of an accident are reinforced, double stitched and fitted with state-of-the-art CE protectors. This ensures the garments can withstand all the usual stresses and strains of day-to-day riding, and even the hardest impacts on asphalt and gravel, without sacrificing freedom of movement.

The materials and treatments, the manufacturing techniques, and every test at every stage all reflect the pursuit of one goal: to provide riders with the highest level of active and passive safety and the most enjoyable ride possible. After all, at BMW Motorrad, safety is about providing total peace of mind.

COMFORT

Just like safety, comfort is a crucial factor in the development of rider equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by any of the garments they are wearing.

For this reason, BMW Motorrad helmets are especially quiet, while the brand's clothing comes with innovative ventilation and membrane systems as standard – because only when they feel comfortable in all conditions can riders respond quickly to events on the road.

The BMW Motorrad helmets, jackets, suits, trousers, boots and gloves don't just look good – they're in a class of their own when it comes to practicality. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet a wide-ranging set of requirements for motorcycling clothing – with the aim of making the best even better. For example, we developed the groundbreaking BMW climate membrane, which combines high water resistance (with a minimum 10,000-mm water column) with incredible breathability. Combining unprecedented damping properties with maximum comfort, our continually upgraded NP protectors are prime examples of why BMW Motorrad rider equipment is at the forefront of innovation. Last but not least, we attach incredible importance to safety. Case in point: the ultra-lightweight System 7 Carbon helmet, whose 100% high-performance carbon-fibre shell offers reliable protection and can be converted into a jet helmet in seconds – all without the help of specialised tools.

C.A.R.E. is a promise to our customers that our products will always remain at the cutting edge of safety, quality and comfort.

QUALITY

At BMW Motorrad, we know that raising the bar means going to great lengths. That's why we put our products through mile after mile of testing to identify and eliminate any potential weaknesses. Every item in the BMW Motorrad rider equipment range is designed and built to endure the countless miles riders cover.

There are no legal requirements for quality and durability, so we decided to create our own standard with its own set of criteria. And this is something we're taking very seriously. In our dedicated laboratory, every item of BMW Motorrad rider equipment is tested down to the last detail to ensure incomparable quality – and this includes the development processes and the materials used to make them.

We shake, scrape and smash practically everything within our reach in our test facilities. As a result, you're unlikely to find the same level of quality anywhere else.

C.A.R.E. STANDARDS – HOW THEY MEASURE UP

SAFETY

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Impact absorption	There is no legal requirement for specially fitted right and left-side protectors.	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
Tear resistance	Materials must offer a minimum resistance of 100Ncm ² . (DIN EN ISO 13937-2:2000; tear resistance*)	The materials employed by BMW Motorrad must be able to withstand a force of at least 1000 Ncm ² .
Impact/abrasion resistance	In standard industry testing, materials are exposed solely to an abrasive belt running at approx. 29km/h. (DIN EN ISO 13595-2:2002; impact abrasion resistance*)	The BMW testing institute simulates the impact, fall and slide of a 75-kg rider on motorway tarmac, at speeds of up to 120 km/h.
Helmet aerodynamics/ aerocoastics	Helmets are tested individually for aerodynamic and aerocoastic performance, without the rider or motorcycle.	We analyze the aerodynamics and aerocoastics for the helmet (with both rider and motorcycle) over many hours of wind tunnel testing.
Helmet angles of sight	Standard regulations do not call for helmets to offer an expanded (and thus safer) field of vision.	By offering angles of sight that go beyond industry norms, our helmets provide a wider field of vision, particularly laterally. This significantly increases safety when riding in urban areas.

INNOVATION

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Water resistance	According to DIN standards, fabric with a water head of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW climate membrane combines high water resistance (with a minimum 10,000-mm water column) with incredible breathability.
Practicality	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad test riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.
Helmet water resistance	There is no legal requirement to integrate seals within the structure of helmets. If desired, manufacturers can simply apply seals using adhesive.	Our innovative seals are built into the structure of our helmets, and are not glued on. This ensures peerless protection and water resistance in even the toughest conditions.
Helmet angle of removal	By law, the maximum angle of removal permitted for helmets is 30 degrees. (ECE 22.05 roll-off test*)	The angle of removal for BMW Motorrad helmets is considerably smaller than is required by law thanks to our innovative neck straps.

* As of October 2014

COMFORT

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Fit and ergonomics	In general, only standardized sizes are available. (DIN EN ISO 340*)	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
Height-adjustable protectors	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.
Helmet ventilation	Standard helmets offer ventilation around the upper part of the head only.	BMW Motorrad helmets are designed to allow air to circulate around the entire head. The chin and visor areas are well ventilated to ensure mist-free vision even in the toughest conditions.

QUALITY

As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Resistance to fading	No industry standard.	Garment samples are spread out under xenon light to test their resistance to fading. (Taken from DIN EN ISO 105-B02:2002; resistance to fading*)
Rub fastness	No industry standard.	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the colouring of the test fabric. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Colour fastness to perspiration	No industry standard.	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together. (Taken from DIN EN ISO 105-E04:2013; fastness to perspiration*)
Oil repellency	No industry standard.	Materials are tested for their resistance to oil and petrol in the same way as the colour fastness analysis. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Fastener abrasion resistance	No industry standard.	Textiles are subjected to the Martindale abrasion test, at a force of 9kPa over 4000 cycles, to assess their resistance to wearing. (VDA 230-210:2008, taken from DIN EN 530:2013; fastener abrasion resistance*)
Washing fastness	No industry standard.	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the colouring assessed. (Taken from DIN EN ISO 105-C06:2010; textile washing fastness*)
Helmet UV and impact resistance	No industry standard.	Our paint systems are subjected to strict testing to ensure they maintain their appearance and performance over time.
Helmet chin section wear	No industry standard.	In fatigue testing, the opening and closing of the visor and chin section is repeated over and over again. This ensures the helmet functions correctly throughout the entire life cycle.

HELMETS

BMW Motorrad helmets meet the highest standards in safety, functionality and comfort, whether riding down country roads or doing a few laps around the track. Each design therefore offers an unobstructed field of view, perfect ventilation and the very best aerodynamics – including the System 7 Carbon flip-front helmet, with its quadruple-joint mechanism and 100% carbon shell.

GS enduro goggles

GS Trophy enduro goggles

These goggles are a perfect match for the GS Carbon helmet and offer excellent ventilation for off-road use. Naturally, they also comply with the EN 1938:1998 safety standard. The width-adjustable strap and comfortable padding make them a pleasure to wear. Also available with easy-change transparent, tinted or orange double glazed lens.

GS CARBON HELMET

The GS helmet has a sleek design worthy of the off-road scene that inspired it. A carbon shell and integrated BMW neck straps offer the maximum rider safety. The sun shield and aerodynamic spoiler, optimised in a wind tunnel, provide the comfort to match.

- Enduro-style helmet, perfect for touring (two helmet shell sizes available)
- 100% carbon-fibre reinforced plastic shell
- Outstanding impact absorption and safety performance
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed, three-dimensionally curved visor
- Anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Spoiler and removable sun shield for optimum aerodynamics
- Highly effective ventilation system
- Integrated dust filter and removable chin vent flap for off-road and hot-weather riding
- Removable, washable head and cheek pads
- Integrated neck straps for optimum safety performance
- Compatible with BMW Motorrad communication system
- Safety standard: ECE 22-05
- Weight: approx. 1,450 grams with shield and dual visor
- Options: tinted silver reflective, blue reflective or orange visor

SYSTEM 7 CARBON HELMET

The System 7 Carbon helmet provides maximum comfort and safety. The carbon helmet shell is especially light and has outstanding impact absorption properties. The quadruple-joint chin bar pivot ensures a low front profile even with the chin bar open. Removing the chin guard requires no tools and only two buttons – turning it into a fully fledged jet helmet. The sun visor is easily adjustable to adapt to sudden changes in light. Excellent ventilation helps you keep a cool head and a double-glazed visor ensures unobstructed vision. In terms of aerodynamics and aero-acoustics, the helmet ranks among the best on the market.

- Flip-front helmet with quadruple-joint mechanism
- Lightweight, 100% carbon shell (two sizes) with excellent impact absorption and optimum rigidity
- Liner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Effective ventilation for head and visor
- Outstanding aerodynamics and aeroacoustics
- Built-in drop-down sun visor, operated via slide control
- Large spoiler
- Central release button to open the chin guard
- Chin strap with a snap lock closure, integrated neck straps prevent the helmet from twisting in the event of an impact
- Removable, washable liner made of DuPont Coolmax and Alcantara
- Quick and easy conversion to a jet helmet
- Compatible with the BMW Motorrad communication system
- Safety standard: ECE 22-05
- Low weight: approx. 1,580 grams (small helmet)
- Options: tinted silver reflective, blue reflective or orange visor

SIZES

52/53 – 64/65

Colour scheme: Specter

STREET X HELMET

The BMW Motorrad Street X helmet has been designed to take on any road, be it motorway, city street or country lane. This is a helmet that effortlessly combines comfort and safety with a stylish modern design. The sun visor can be adjusted freely, giving you full control to quickly adapt the helmet to various light conditions. The Street X has been wind-tunnel tested to ensure optimum aerodynamics and aeroacoustics. Superb ventilation makes sure you keep a cool head and the double-layered visor ensures you keep everything in sight. And in spite of this wide range of functions, the Street X remains incredibly lightweight.

- Full-face helmet with integrated sun visor
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: condensation-resistant inner visor; outer visor with scratch-resistant coating
- Excellent head and visor ventilation
- Optimum aerodynamics
- Integrated sun visor, adjustable via a slider bar on the top of the helmet
- Chin strap with double-D fastener
- Removable, washable interior
- Safety standard: ECE 22-05
- Weight: approx. 1,450 grams (small helmet)
- Tinted silver reflective or blue reflective visor optionally available

SIZES

53/54 - 61/62

RACE HELMET*

For helmets to deliver maximum safety, they must combine a number of different functions. As would be expected, the integral Race helmet is exceptional when it comes to impact absorption. Its race-proven, full-face design lets you concentrate completely on the road ahead, and react at lightning speed.

- Integral helmet, suitable for the racetrack
- Glass-fibre/carbon-fibre outer shell in two sizes
- Inner layer made of multi-segmented expanded polystyrene
- Large spoiler for maximum stability even at speeds over 300 km/h
- Visor with wide field of vision (even in the prone position), two-dimensionally curved, with anti-scratch coating on both sides
- Anti-fog inner visor
- Effective visor and head ventilation
- Visor lock button at the side
- Enlarged neck contour ensures wearer comfort even when riding in the prone position
- Double-D fastener
- Neck straps prevent the helmet from twisting in the event of an impact
- Fully removable and washable liner
- All colours supplied with clear visor and one set of tear-offs
- Safety standard: ECE 22-05
- Weight: 1,350 grams (small helmet)
- Tinted visor available as an optional extra

ROAD 66 MOTORCYCLING GOGGLES

With a chrome frame, soft genuine leather cushioning and optional clear or tinted lenses, the Road 66 motorcycle goggles are the ideal match for the Legend helmet. The recess for the nose bridge also makes them suitable for glasses wearers.

- Cool, high-quality motorcycle goggles
- 100% compatible with the Legend helmet
- Chrome-plated Gunmetal frame
- High-quality soft leather padding
- Extra-strong, adjustable elastic strap
- Suitable for glasses wearers (incl. recess for nose bridge)
- BMW Motorrad logotype on imitation-leather appliqué
- Includes fabric pouch featuring the BMW Motorrad print
- Optional interchangeable clear or tinted lenses available

Single size

LEGEND HELMET

Vintage look. High-quality leather. No visor. No compromises. The Legend jet helmet means business – especially when it comes to safety. It boasts excellent shock absorption and comes with integrated neck straps to help keep it in place. Matching goggles and an optional sun shield complete the flawless look.

- Safety standard: ECE 22-05
- Lightweight: approx. 1,050 ± 50 grams)

SIZES
54–61 (XS–XL)

- Retro-style jet helmet
- Fibre glass-reinforced shell
- Chrome-plated edging
- Short sun shield (detachable), no visor
- Comfortable padding with mesh for enhanced ventilation
- Premium-quality interior made of leather
- Genuine leather goggle strap featuring embossed BMW logotype
- Neck straps prevent the helmet from twisting in the event of an impact

AIRFLOW HELMET

A helmet for the warmer periods of the motorcycle season. A modern design made from premium material and with unrivalled AirFlow functionality. Keep a cool head thanks to the optimally positioned ventilation openings and channels, which can be closed when not needed. This is aerodynamics and aeroacoustics of the highest level. Also prepared to accept the BMW Motorrad communications system and conforms to ECE-22-05.

- Weight approx. 1,170/1,280/1,380 grams (depending on shell size)
- Tinted visor available as an optional extra

SIZES
52/53–62/63

- Premium jet helmet with excellent ventilation
- Outer shell made of glass-fibre reinforced plastic
- Inner layer made of multi-segmented expanded polystyrene
- Three-dimensionally curved visor, with anti-scratch coating on both sides (class 2 optical quality)
- Two large ventilation zones can be closed via slide control
- Outstanding aerodynamics and aeroacoustics
- Chin strap with snap lock and variable insertion depths
- Integrated neck straps
- Washable liner
- High-quality aluminium elements with BMW branding
- Compatible with BMW Motorrad communication system
- Safety standard: ECE 22-05

BMW MOTORRAD HELMET BAG

The BMW Motorrad helmet bag is the perfect way to transport and store your motorcycle helmet. The rigid base protects the helmet even when parked up, while vents guarantee the best possible air circulation. The helmet bag is suitable for all BMW Motorrad helmets.

- Premium helmet bag with a classic design
- Ideal for transporting and storing motorcycle helmets
- Rigid base with integrated vents
- Padded main compartment accessible via a long, double-zip closure
- Soft fleece inner lining helps prevent scratches on the helmet and visor
- Practical outer pocket for small bits and pieces, e.g. keys, closable with a stud fastener
- Robust carry handles and detachable shoulder strap with high-quality metal clasps
- BMW Motorrad logotype on front
- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (H x W x D): approx. 26 x 36 x 21 cm
- Capacity: approx. 20 litres

COMMUNICATION SYSTEMS

Talking to fellow riders, making phone calls, listening to music – it's all possible with the BMW Motorrad communication system. What's more, the rider can do all this without taking their eyes off the road. The BMW Motorrad communication system facilitates wireless verbal communication between two helmets. It's also possible to connect the BMW Motorrad Navigator with your smartphone, your bike's TFT display or the audio system of any BMW motorcycle. The systems are designed to make communication as easy as possible out on the road: they're lightweight, easy to use and deliver outstanding sound quality.

SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. And with the new Rallye suit, there's even a model for the most demanding of globetrotters.

AIRFLOW SUIT

MEN AND WOMEN'S CUT

Even on the hottest summer days, the AirFlow summer suit will keep you cool and fresh. Stretch and mesh inserts made of abrasion-resistant Dynatec material provide excellent ventilation and freedom of movement. In black, this suit has an additional Coldblack finish, to prevent it from heating up.

- The perfect summer suit for warm weather
- Abrasion-resistant Dynatec outer
- Removable NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable at elbows and knees).
- Generous stretch Dynatec on the upper back for maximum freedom of movement
- Air-Tex mesh inserts on the chest, arms and thighs for optimum ventilation
- Mesh lining is extremely air permeable and elasticated
- Includes windproof Cover jacket to wear over top in cooler weather; can be stowed in back pocket
- Reflective material on the jacket and trousers
- Black version incl. Coldblack technology
- Dirt and water-resistant finish
- Soft material on the collar, sleeve seams and trouser waistband
- Velcro fasteners to adjust width of trouser waistband, sleeve cuffs and trouser cuffs, and waist of the women's jacket
- Two built-in carry straps mean jacket can also be worn as rucksack
- Two side jacket pockets, one back pocket, three inner pockets, two trouser pockets (most pockets with zips)
- Extra: waterproof pouch in jacket pocket e.g. for your smartphone or wallet
- Connector zip: 40 cm (all-around)
- Regular fit
- CE-certified

TOURSHELL SUIT

MEN AND WOMEN'S CUT
This popular touring suit incorporates the BMW climate membrane in a z-liner construction, giving a light, comfortable feel whilst still offering maximum protection from incidents and the elements.

- Waterproof touring suit for year-round use
- Abrasion-resistant Dynatec
- Comfort in Z-liner construction
- BMW climate membrane (windproof, waterproof and breathable)
- NP2 protectors on back, elbows, hips and knees (adjustable to three different heights) and NPL protectors at shoulders
- Waterproof vent zips on upper body
- 3D air mesh lining in the back
- Sleeve cuffs, collar and trouser waistband adjustable with Velcro fasteners
- Quilted stretch inserts at the shoulders, jacket waistband and above the knees for a perfect fit
- Two waterproof outer jacket and trouser pockets, two inner jacket pockets (incl. one smartphone pocket with a viewing panel and cable duct), one non-waterproof pocket on the left sleeve
- Works well with the Ride quilted jacket (p. 87)
- High-visibility reflective material on the jacket and trousers
- Connector zip: 40 cm
- Regular fit
- CE-certified

STREETGUARD SUIT

MEN AND WOMEN'S CUT

Breathable, windproof and waterproof, this jacket is a genuine all-rounder that comes with a thermal inner jacket and removable thermal trouser liners. A highly abrasion-resistant three-layer laminate with ProtectionGuard and removable NP2 protectors offer all the protection you need.

- Professional-grade touring suit for year-round use
- Highly abrasion-resistant, elasticated three-layer laminate (95 % Cordura and 5 % elastane)
- BMW climate membrane, developed in accordance with C.A.R.E. standard; windproof, waterproof and highly breathable
- Material reinforced with innovative ProtectionGuard in vulnerable areas
- NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable), coccyx protector retrofittable
- Wind- and waterproof removable storm collar with integrated storm hood
- Removable, wind-proof, thermal inner soft-shell style jacket can be worn separately
- Removable thermal trouser liners
- Zipplable trouser fly in men's trousers with stretch side panels and adjustable trouser braces
- Zipplable raised waistband in women's trousers with fleece lining with anti-slip silicone print for grip
- Ventilation zips on the front and rear of the jacket, and on the upper thighs
- Jacket pockets: two water-resistant outer pockets, one easy-access zippered pocket with a waterproof, labyrinth-design zip closure, three waterproof inner pockets, incl. one multimedia pocket
- Trousers pockets: two water-resistant outer pockets
- Steplessly adjustable trouser waist
- Reflective print on the front and back of the jacket and on the trouser side panels
- Connector zip: 40 cm (all-around and extended)
- Comfort fit
- CE-certified

ENDUROGUARD SUIT

MEN AND WOMEN'S CUT

Be prepared, whatever the weather. This professional enduro suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW climate membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider.

- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller Textil AG.
- Three-layer laminate with BMW climate membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (steplessly height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and trousers, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three trouser pockets, incl. one key case
- Wide sleeves and trouser cuffs feature a windbreaker for optimum protection in inclement weather
- Waterproof storm hood integrated into the collar
- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- Velcro fasteners and press studs offer adjustable widths
- Reflective print on jacket

- Connector zip: 40 cm (all-around)
- Comfort fit
- CE-certified

RALLYE SUIT**MEN'S CUT**

The Rallye suit is full of handy features that make it the perfect globetrotter. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. This well-ventilated suit is also made of abrasion-resistant ProTechWool material and has several pockets for storing your personal items.

- Off-road suit suitable for warm to moderate temperatures with detachable waterproof insert
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: when worn as an over jacket also protects from dirt
- Trousers with wind and waterproof BMW climate membrane insert with comfort mapping: Membrane qualities matched to different areas of the body
- Material reinforced in areas most susceptible to falls
 - Elastic, breathable mesh lining in the jacket
 - Trousers with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached via four press studs

- Sophisticated ventilation system using flaps on chest, zips on arms and legs, and large air outlet panel on back
- 3D air-mesh lining on the back to allow air circulation under back protector
- Velcro and press studs for width adjustment
- Wide, easily adjustable leg openings
- Jacket: Six front pockets (two waterproof), one large and one small pocket on the lower back, two zipped inner pockets
- Easy-access pouch for the TrinkPak Hydra
- Four trouser pockets
- Reflective material on the sleeves, back and trousers
- Connector zip: 40 cm
- Regular fit
- CE-certified

(Grey version, 46-60 only)**ATLANTIS SUIT****MEN AND WOMEN'S CUT**

This premium touring suit made from high-quality leather offers comfort and protection for year-round motorcycling. The breathable nubuck cowhide leather boasts incredible abrasion resistance and waterproofing, offering maximum comfort and temperature regulation even over long distances.

- All-weather touring suit made of high-quality nubuck cowhide leather
- Highly abrasion-resistant, full-grain cowhide leather (1.2-1.4 mm), highly water-resistant and water-repellent
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Removable NP Pro back protector
- Coccyx protector retrofittable
- Naturally breathable leather regulates body temperature and moisture extremely effectively
- Taped, watertight seams and rubber-lined, waterproof zip fasteners prevent unwanted water penetration
- Waterproof membrane flap under the jacket's front zip, combined with a second, inner zip
- Waterproofing offered by membrane fabric behind the trouser fly helps to prevent water penetration
- Loops on trousers for attaching optional braces
- Stretch zones at the shoulders, back and above the knee, as well as at the rear trouser waistband
- Adjustable at waist, arm and trouser cuffs
- Two zipped outer pockets on both the jacket and trousers, two zipped inner pockets in the jacket
- Sleeve cuffs feature two zips, which allow you to wear gloves either inside or outside the suit (the second zip can be left open when wearing gloves inside the suit)
- Grey reflective print on shoulders
- Connector zip: 40 cm (all-around)
- CE-certified

DARKNITE SUIT

MEN AND WOMEN'S CUT

A modern leather suit cut in a classic style, the DarkNite suit offers the purest riding experience. Made with high-quality, unsealed cowhide leather, each suit retains its natural authenticity and boasts a unique patina. Additions such as removable NPL and NP2 protectors, padded inserts and more mean you can ride in confidence – without sacrificing the jacket's classic styling.

- Modern suit made of high-quality cowhide leather
- Abrasion-resistant, natural full-grain cowhide leather (1.0–1.1 mm)
- Water-repellent, but not waterproof
- Naturally breathable leather regulates body temperature and moisture effectively
- NPL protectors at the back, shoulders, elbows and knees (steplessly height-adjustable), NP2 protectors at hips (removable)
- Stretch fabric at the back, above the knee and on the rear trouser waistband for optimum freedom of movement
- Padded inserts at the collar and shoulders
- Jacket waistband and women's trousers adjustable via press stud fastener
- Sleeve and trouser cuffs feature metal zips
- Stand-up collar closable with press stud
- Three zipped outer jacket pockets, three inner pockets (incl. a smartphone pocket), four trouser pockets (zipped back pockets)
- Premium metal BMW Motorrad lettering on back, embossed BMW logotype on the left upper arm
- Cotton lining at the chest and back with large print on the back, mesh lining in the sleeves and trousers
- Connector zip: 40 cm
- Regular fit
- CE-certified

SPORT SUIT

MEN'S CUT

Take control of the streets in this professional-grade suit made of 100% cowhide nappa leather. NP2 protectors and INOX stainless steel sliders safeguard the rider in the event of a fall, while 3D mesh in the back and the AirVent system in the front ensure it never gets too hot or cold inside the suit. Every element is designed to maximize performance, including the cut, which encourages riders to assume an aerodynamic racing position. The result is total domination every time you take to the tarmac.

- Sporty leather two-part suit
- 100% cowhide nappa leather (approx. 1.3 mm)
- NP2 protectors stitched in at shoulders, elbows and knees; removable hip and back protectors
- Optional retrofittable NP2 coccyx protector
- Integrated, shock-absorbing material at collarbone and on chest
- Plastic-covered INOX stainless steel slider at shoulders
- Detachable knee sliders made of hardened plastic
- Front zip can also be used as air vent
- 3D mesh lining in back for improved circulation
- Leather stretch inserts for maximum comfort at the shoulders, sleeves, kidneys and knees
- Kevlar stretch inserts for the best possible fit and freedom of movement for the arms and legs
- Highly elasticated LYCRA lining in high-motion areas
- Soft neoprene-edged collar
- Cuffs on arms and legs made of Kevlar stretch material
- Trouser waistband made of stretch fabric
- Two outer pockets, one Napoleon pocket, one inner jacket pocket
- Preshaped sleeves and knees for excellent seated posture on the motorcycle
- All seams are safety seams stitched with safety thread
- Connector zip (all-around)
- Regular fit
- CE-certified

DOUBLE R SUIT

MEN'S CUT

This uncompromising one-piece DoubleR racing suit is up to the toughest sporting challenges, whether on the road or the racetrack. Features like highly abrasion-resistant cowhide leather, high-quality composite protectors, INOX stainless steel sliders at the shoulders and elbows, and the integral back hump put function and comfort into every manoeuvre.

- Body-hugging one-piece race suit in BMW Motorrad motorsport design
- Highly abrasion-resistant cowhide leather, approx. 1.2 mm thick
- Composite protectors at the shoulders, elbows, hips and knees
- Includes separate back protector shield (p. 98)
- Plastic-covered INOX stainless steel slider at the shoulders and elbows
- Replaceable rigid-plastic sliders at the knees
- Preshaped joints for optimal posture in the racing position
- Aerodynamic hump
- Numerous stretch leather and textile inserts for maximum comfort
- Perforated leather on the chest and back for excellent ventilation
- Washable lining
- Ends of trouser legs are zipped and can be tucked inside or worn over boots
- Matching DoubleR Skin undersuit
- Regular fit
- CE-certified

DOUBLE R RACE AIR SUIT

MEN'S CUT

Now racers can enjoy an even more dynamic ride with this preshaped one-piece made from abrasion-resistant cowhide leather. Maximum all-round protection is guaranteed by the airbag system (API) and protectors, as well as a separate back protector and INOX stainless steel sliders.

- One-piece racing suit with Active Protection Inflatable (API) system
- Highly abrasion-resistant cowhide leather, approx. 1.2 mm thick
- Intelligent API system for optimum safety on the track - API activates an inflatable cushion on the neck, shoulders and clavicle in the event of a crash
- API activation time: 45 milliseconds
- Composite protectors at the shoulders, elbows, hips and knees
- Separate back protector shield
- Plastic-covered INOX stainless steel slider at the shoulders and elbows
- Replaceable rigid-plastic sliders at the knees
- Preshaped joints for optimal posture in the racing position
- Aerodynamic hump
- Numerous stretch leather and textile inserts for maximum comfort
- Perforated leather on the chest and back for excellent ventilation

STREETGUARD AIR JACKET

MEN AND WOMEN'S CUT

The professional-grade StreetGuard AIR touring jacket provides effective protection, whatever the road has in store for you. Integrated preparation for the Street AIR vest enhances passive safety, as do additional NP2 protectors, abrasion-resistant ProtectionGuard material, striking reflective print and countless other smart features. In addition, the BMW climate membrane and a range of ventilation zips prevent the build-up of heat, and ensure all riders find their perfect temperature. Best of all though, it means you can enjoy the ride, whatever the weather.

- API-ready (Active Protection Inflatable) StreetGuard jacket

- Combines with the Street AIR vest to provide airbag technology protection, significantly better impact absorption than conventional body armour

- Highly abrasion-resistant, elasticated three-layer laminate
- Double-thickness ProtectionGuard material in vulnerable areas

- Removable NP2 protectors at the shoulders and elbows

- Waterproof, windproof and incredibly breathable thanks to the BMW climate membrane

- Removable storm collar with integrated storm hood
- Ventilation zips on the front and rear

- Two outer pockets, four waterproof inner pockets, incl. one carefully designed multimedia pocket
- Reflective print on front and back
- Connector zip: 40 cm (all-around)
- Comfort fit

RIDE JEANS

MEN AND WOMEN'S CUT

These Ride jeans are fully fledged casual motorcycling trousers with five-pocket styling. They offer enhanced abrasion resistance thanks to the carefully selected material blend and integrated Kevlar inserts in vulnerable spots. Riders can quickly and easily remove the knee protectors from the outside, turning the trousers into casual jeans for everyday wear.

- Stylish five-pocket motorcycling jeans
- For use on and off the bike
- Abrasion-resistant blend of cotton, polyester and Cordura
- Kevlar inserts for enhanced abrasion resistance in the seat and at the hips, and on the sides of the upper thighs and knees; invisible from the outside
- Steplessly height-adjustable NPL knee protectors, removable from the outside for a quick change from motorcycle to leisure trousers
- Removable NP2 hip protectors
- Separate men and women's versions (men: straight-cut, women: slim-fit)
- Leather label on waistband featuring BMW Motorrad lettering and embossed with 'engineered in Germany'
- 'Make Life a Ride!' print on the inner waistband

SPORT DRY BOOT

UNISEX

Built for speed, tailored for comfort: SportDry boots are made of 2.2-mm cowhide leather and feature removable side and heel abrasion protectors. The breathable, windproof and waterproof GORE-TEX® membrane keeps your feet comfortable during the hottest overtaking manoeuvres, while the torsion-resistant ankle guard (TCS), shock absorber and toe reinforcements provide top-level protection.

- Sport-style leather boot with removable plastic side and heel protectors
- Upper: cowhide leather (2.2 mm), synthetic leather at the ankle
- Windproof, waterproof and breathable GORE-TEX® membrane
- Rigid ankle protection with the Torsion Control System (TCS)
- Anatomically moulded shin guard
- Interior reinforcement at toes
- Shock absorber at the heel
- Shift-lever guard made of soft PU
- Inner shaft zip, large Velcro calf fastening for adjustment
- Stretchy areas at the instep and heel
- Reflective patches on heels
- Oil and fuel-resistant rubber sole
- Removable, washable insole

- Insole lined with moisture-wicking, antibacterial Cambrelle
- Perforated, breathable mesh lining in the shaft
- Large BMW Motorrad appliqué on shin guard
- CE-certified according to DIN EN 13634

VENTURE GRIP BOOT

UNISEX

A year-round boot that combines all the best features for touring and enduro riding is an absolute must-have. This allrounder made of full-grain cowhide leather comes with non-slip soles and a host of carefully designed safety features.

- Slick, waterproof leather enduro boot for everyday use
- Comfortable and robust, suitable for touring
- High wear resistance
- Classic enduro style with buckles, dashes of colour on the soles, a taller shaft and oiled leather
- 100% full-grain cowhide leather, cued
- BMW climate membrane (windproof, waterproof and highly breathable)
- Impact-absorbing shin guards, thermally formed and stiffened
- Plastic, foam-padded ankle protector
- Moulded reinforcements around gear-shift area on both sides
- Suede leather inner shaft for improved grip when standing
- Three adjustable quick-release fasteners with high-quality clasps
- Velcro panel for stepless calf width adjustment
- Stretch leather at the arch and instep for improved mobility when walking and changing gear

- Robust outer sole with high torsional resistance
- Extremely thick tread for better traction off-road
- Removable antibacterial inner sole
- Elasticated at top of shaft to help keep out water and dirt
- Front closure, soft padding on the shin
- Shaft height at back approx. 36 cm in size 42 boots
- CE-certified according to DIN EN 13634

DRY SNEAKERS

UNISEX

Sometimes even motorcycle riders want to wander through the urban landscape on foot – preferably in lightweight sneakers made of high-quality cowhide leather that look as cool with jeans as they do with motorcycling gear. Reinforcements, protectors and extra padding in the gear-shift area offer all the safety you need on the bike.

- High-quality leather sneakers for the city and short trips
- 100% fine, lightweight cowhide leather
- Suitable for warm summer and humid climates
- Lightweight and incredibly breathable thanks to perforated velour leather on the sides
- Added moulded protection at the heel
- Reinforced in gear-shift area
- Interior-reinforced heels and toecaps
- Reflective material on the sides and at the heel for added safety when driving at night
- Half-height shaft with inner zip for quick removal
- Lacing to adjust width
- Leather-trimmed laces
- Shaft height at back approx. 16 cm in size 43 boots
- Rubber sole with Boxer motif
- Practical 3D air mesh lining for breathability

- Removable BMW Motorrad-branded inner sole
- Bright, summer colours

ENDUROGUARD GLOVES

UNISEX

The multifunctional EnduroGuard glove with twin-chamber technology is truly unique, allowing riders to easily switch chambers when weather conditions change. The PROOF chamber is windproof and waterproof, with a lining for thermal insulation. The GRIP chamber features wafer-thin, abrasion-resistant kangaroo leather for a crease-free, tactile fit.

- Enduro gloves with twin-chamber technology, which allows riders to switch chambers when weather conditions change.
- PROOF upper chamber is breathable, waterproof and windproof thanks to GORE-TEX® 2-in-1 technology with a lightweight, insulating pique jersey lining
- GRIP lower chamber made of highly abrasion-resistant kangaroo leather (approx. 0.7 mm), unlined and perforated for maximum grip
- Back of hand: blend of soft cowhide leather and Schoeller Dynatec
- Highly abrasion-resistant ceraspace print on the knuckle protectors and ball of the hand
- Double-thickness leather on edge of hand
- Plastic protective shell over knuckles with shock-absorbing foam
- Lightweight foam on finger backs and back of the hand
- Touchscreen-compatible index finger and thumb tips
- Rubber wiper lip on left index finger
- Mid-length cuff with Velcro width adjustment
- Reflective material on the outside
- Special seams prevent pressure points on the fingers and palm of the hand
- CE-certified according to DIN EN 13594

DOUBLE R GLOVES

UNISEX

This sturdy yet sporty 100% kangaroo leather glove punches well above its weight. The plastic protective shell with titanium inserts over the knuckles, SuperFabric material with impact-absorbing gel and impact-absorbing Suprotec foam padding on the back of the hand all help to provide maximum protection.

- Hard-wearing yet flexible sports glove
- 100% kangaroo leather
- It provides optimum protection thanks to double thickness SuperFabric material and shock-absorbing gel at the edges and palms of the hand.
- Tough plastic protective shell over the knuckles with titanium inserts for even greater protection
- Impact-absorbing SuproTec foam on the back of the hand, thickness varies depending on function and zone
- Finger bridge between little and ring fingers helps prevent the most common racetrack finger injuries
- Stretch inserts for a more comfortable fit
- CE-certified according to DIN EN 13594

AIRFLOW GLOVES

UNISEX

These gloves are designed to complement the AirFlow suit, but are also perfect for any summer excursion. They combine thin, abrasion-resistant materials such as goatskin leather and AirTex that deliver both grip and protection. Knuckle protectors and impact-absorbing foam protect the back of the hand, while holes in the insides of the fingers ensure optimum ventilation. Your next summer tour won't be complete without them!

- Lightweight, well-ventilated summer gloves
- Highly breathable goatskin leather and large air-permeable Schoeller AirTex applications on the back of the hand
- Perforations on back of hand and between fingers for improved ventilation
- Double-thickness palm, balls of the hands lined with Schoeller Keprotec padding
- Leather-covered plastic protective shell over knuckles, with ventilation holes and a shock-absorbing foam lining
- Lightweight foam on finger backs
- Short wrist cuff with Velcro strap
- Soft cuff material prevents chafing of the wrist
- Preshaped design prevents pressure points at the fingers
- Palm unlined for a firmer grip
- Suede leather thumbs for wiping visor
- CE-certified according to DIN EN 13594

PCM JACKET

UNISEX

Whatever the mercurial spring and autumn weather brings, this jacket's innovative phase change material will keep you warm, dry and comfortable. The multifunctional jacket can not only be worn underneath any motorcycle jacket - its removable sleeves mean it can also be worn by itself as a vest.

- Highly functional mid-layer that can be worn both on and off the bike
- Blend of soft shell, stretch and Schoeller PCM fabrics
- Schoeller PCM: active temperature regulation and dynamic climate control
- Graphical material description on the left pocket pouch (inner)
- Removable sleeves offer the perfect fit, by itself or as a vest under a motorcycle jacket
- Two zipped outer pockets on sides
- Opening at the lower back allows you to use the 40-cm connecting zip on motorcycle jackets and trousers
- Loop at collar to attach to motorcycle jacket
- Perfect for temperatures between 10 °C and 20 °C
- Regular fit

RIDE FLEECE JACKET

MEN AND WOMEN'S CUT

Ride on, ride smart. Smart bikers don't flinch in cooler temperatures – they just pull on their functional jacket with windbreaker material underneath. Featuring a smooth upper and a cosy inner lining, BMW Motorrad two-piece suits can be attached via integrated openings in the back.

- High-quality, functional fleece jacket
- Smooth, Powerstretch outer for optimum heat retention
- Napped fleece inner: breathable, temperature-regulating, moisture-wicking and fast-drying
- Windbreaker material with a windproof membrane in chest area
- Horizontal zip at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and trousers
- Slim cut for a perfect fit underneath motorcycle clothing
- Extra-long at back and close-fitting cuffs
- High, close-fitting stand-up collar
- Two side pockets with zips and mesh lining
- Full-length front zip
- Soft cover for zip fastener in neck area
- Regular fit

RIDE WINDBREAKER

UNISEX

Can you improve on perfection? Going by this performance windbreaker made of windproof, water-resistant soft shell material, the answer is yes. Designed to be worn as a mid-layer, the jacket features a long back, making it the perfect companion for suits without a climate membrane.

- Performance windbreaker jacket
- 100% soft-shell polyester
- Three-layer laminate with highly functional PU membrane
- Windproof, waterproof and breathable
- Slim cut for a perfect fit underneath motorcycle clothing
- Extra-long back section
- High, narrow stand-up collar
- Flexible stretch-fabric insert at wrist for a comfortable fit
- Three zippered mesh-lined outer pockets, including chest pocket with inner opening for headphones
- Inner pocket with mesh lining; packs down to a small size
- Full-length front zipper
- Horizontal zip at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and trousers

RAINLOCK WET-WEATHER SUIT

UNISEX

There's no such thing as braving the rain with this two-piece wet-weather suit – it comes into its own when the heavens open. The windproof and waterproof material is heat-resistant at the inner leg and anti-slip at the seat, which makes it the ideal protective gear for any eventuality.

- Two-piece rain suit, windproof and waterproof
- 100% nylon with waterproof PU coating
- Non-slip material on seat; heat-resistant material on inner leg
- Adjustable hood in collar (removable)
- Front jacket zip with waterproof labyrinth design
- Rubber-lined jacket seams to prevent the jacket from riding up
- Jacket seam fitted with a pull-cord for width adjustment
- Large arm openings make it easy to put on and remove gloves
- Trousers with elastic waistband
- Long leg zips make the trousers easy to put on, lined with pleated material to help prevent water leakage
- Velcro at the arm and leg cuffs
- Two outer jacket pockets with eyelets for water drainage, one waterproof inside pocket
- Reflective print on legs, arms, back and chest
- Lightweight, packs down to a small size

HYDROSOCK FUNCTIONAL SOCKS

UNISEX

Better safe than sorry. Waterproof functional socks are best paired with the GS Pro boot or non-waterproof motorcycle boots for riding in the rain or off-road. Made with a three-layer laminate, the highly elastic four-way stretch material makes these knee-high socks perfect for dry feet whatever the weather.

- Waterproof performance socks
- Ideal for wearing with non-waterproof (enduro) boots in wet conditions
- Worked as a 3-layer laminate
- Outer material: a highly elastic mix of polyester and Spandex
- Laminated with waterproof BMW climate membrane

- Liner made of knitted performance polyester, odour-neutralising and moisture-regulating
- Seamless bonding technology for easy fit and maximum comfort
- Double-bonded edges sealed inside and out
- Reinforced fabric used for parts of the soles
- Four-way stretch
- Comfortable anatomical fit

BAGS/ ACCESSORIES

Whatever the weather, there will always be riders out and about – which is why the right equipment is absolutely essential. No matter how rough the conditions, there's a suitable soft-luggage solution in the BMW Motorrad range. Take the luggage roll, for example. It attaches quickly and easily to every BMW motorcycle, and it's equally suitable for day trips or lengthy tours.

FUNCTION RUCKSACK

An innovative rucksack with a partitioned main compartment. The bag has a maximum capacity of 30 litres, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the rucksack directly to your motorcycle.

- High-quality motorcycling rucksack for touring
- Capacity: expandable from approx. 30 to 35 litres
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle
- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

COLOUR

Grey/White/Red/Black

SMALL FUNCTION RUCKSACK

The small Function rucksack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop sleeve (up to 15"). The back of the Function rucksack also features a pouch for the TrinkPak Hydra.

- High-quality, functional rucksack
- Waterproof main compartment with roll closure, incl. laptop sleeve (up to 15") and small inner pocket
- Four outer pockets, incl. one in the cover flap, splash-resistant (rubber-lined zips)
- Pouch for the TrinkPak Hydra on the back (approx. 2 litres), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (H x W x D): approx. 40 x 30 x 16 cm
- Capacity: approx. 20 litres

COLOUR

Grey/White/Red/Black

GIANT BAG

The sturdy travel bag (with a 90-litre capacity) offers more than enough room for all your gear. The two-part inner compartment features a helmet compartment, boot bag and elastic cross straps. A telescopic handle and low-friction castors make it the ideal mobile storage solution.

- Easy handling: lightweight, with low-friction castors and telescopic and carry handles
- Four compression straps
- Includes separate boot bag

COLOUR

Black/Grey/White

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 litres, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition
- Zippered outer compartment, two large compartments in lid

LUGGAGE ROLL

The waterproof luggage roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 litres
- Outer: hard-wearing tarpaulin, textile-lock base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

COLOUR
Dark Blue

SMALL SOFTBAG

Need even more room? This 30-litre softbag can be expanded by an additional 5 litres. It has a watertight main compartment made of hard-wearing, easy-care material, and is easy to attach to the luggage grid or the pillion seat using the supplied fasteners.

- Rear bag made of flexible material
- Capacity: expandable from approx. 30 to 35 litres
- Waterproof main compartment, four water-resistant outer pockets
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

COLOUR
Dark Grey

LARGE SOFTBAG

The large, high-quality softbag has a waterproof 50-litre main compartment. Capacity can be expanded by up to 5 litres with patch pockets. The sturdy EVA base fits all BMW Motorrad models and includes a non-slip coating. With quick fastening system.

- Rear bag made of flexible material
- Capacity: expandable from approx. 50 to 55 litres
- Waterproof main compartment, four water-resistant outer pockets
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle

ORIGINAL BMW CARE PRODUCTS

BMW Care products meet the high standards set by BMW Motorrad. Developed exclusively for BMW motorcycles and rider equipment, they counteract the signs of ageing and help maintain their value and safety.

FOR RIDER EQUIPMENT

- Functional detergent: protects functional garments and keeps materials windproof, waterproof and breathable
- Waterproofing agent for fabric and leather: repels water and oil and provides a protective seal; not suitable for nubuck
- Visor and helmet cleaner: removes dirt and insect remains effectively, without damaging the equipment
- Cleaning cloth for helmet and visor: one wet and one dry cloth, ideal for use on the move to remove dirt and insect remains
- Helmet pad cleaner: removes dirt, neutralizes odours and freshens up padding
- Anti-fog spray: prevents fogging and repairs light scratches; not suitable for double-glazed visors or visors with an anti-fog coating
- Body + Bike shower gel: cleans and nourishes the skin, dermatologically tested, also suitable for motorcycle cleaning

FOR MOTORCYCLES

- Motorcycle cleaner: cleans all motorcycle components with ease, without harming the bike or the environment
- Chain cleaner: quickly and easily removes abrasive substances such as chain lubricant, sand and street dirt from the chain and sprockets.
- Chain spray: spreads evenly, holds well, and resists rain and extreme temperatures
- Wheel rim cleaner: removes impurities like brake dust and dirt picked up from the street
- Insect remover: effortlessly removes stubborn encrusted insect remains and bird droppings
- Seat cleaner: for high-gloss faux leather motorcycle seats; quickly and effectively removes dust and dirt, protects against the onset of brittleness and ensures seats remain slip-free
- Gloss polish for a deep, high-gloss shine: protects against the effects of the weather, preserves all painted, chrome and plastic parts, removes dull spots and softens micro-scratches
- Metal polish: quickly and effectively removes rust, tar, metal oxides and other dirty marks from aluminium, chrome, brass, nickel, stainless steel and other unpainted metals

TRINKPAK HYDRA

Get thirsty while speeding along the motorway? Give up the water bottle and go for this adaptable drinking system. Simply fill it with up to 2 litres of liquid, secure the lock mechanism, insert the tube via the Plug&Play connector and stow everything in your Rallye suit or a rucksack. Simply sip and ride!

- 2-litre drinking system with tube
- Pouch is quick and easy to clean: just turn it inside out
- Shape-Shift™ technology and inner zip keep the system in shape
- Flexible, hard-wearing 0.25-mm thermoplastic polyurethane
- Handy, large-width slide opening for ease of access
- Contains no bisphenol A or PVC
- Dishwasher-proof
- Capacity: 2 l/70 fl oz

RIDE SUNGLASSES

Genuine head-turners: these stylish sunglasses with metal frames fit under every BMW Motorrad helmet and offer 100% UV protection both on and off the bike. With scratch-resistant plastic lenses and close-fitting design.

- Stylish, high-performance metal-framed sunglasses
- Scratch-proof lenses, tinted in Dark Grey
- 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Close fit provides optimum slipstream protection
- Soft plastic nose pads prevent pressure discomfort
- BMW Motorrad logo on both arms
- Includes BMW-branded carry case and microfibre pouch

COLOUR

FUNCTION SUNGLASSES

These functional sunglasses developed especially for bikers guarantee flawless views along your entire route thanks to their three, highly curved and interchangeable plastic lenses, which allow you to adapt your UV protection to the light and weather conditions.

- Stylish and lightweight performance sunglasses
- Interchangeable plastic lenses for different weather conditions:
 - Brown = high-contrast with an anti-fog coating
 - Grey = lightly reflective with a scratch-proof coating
 - Clear = anti-reflective, scratch-proof coating
- Dark-coloured glasses offer 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Curved, close-fitting design fit provides slipstream protection
- Black plastic frame with Anthracite gummed-plastic inserts
- Soft plastic nose pads prevent pressure discomfort
- Includes BMW Motorrad-branded carry case and microfibre pouch

46/48		60/62/29/30	60/62/30/31/118
		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and trousers also have to sit right on the wearer. Your sleeves and trouser legs shouldn't ride up, because if they do, it's not just a safety issue - it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes. To find the one that's right for you, grab your tape measure and follow these simple instructions.

A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the doorframe, and measure from the floor.

B Chest

Take this measurement while wearing a shirt or lightweight pullover. Pass the tape measure under your arms, and measure around the broadest part of your chest and over the shoulder blades.

C Waist

Measure around your shirt, just above the top of your trousers. Stand in a natural position and don't hold in your stomach - that way you'll ensure the trousers sit comfortably.

D Hips

Measure around your body, above your trousers and the widest point of your hips.

E Outside leg

Measure the distance down the outside of your leg, from the waist of your trousers to the sole of your foot.

F Inside leg

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

Comfort fit:
more generous cut offering greater freedom of movement

Regular fit:
closer, anatomical fit

SIZE CHARTS

WOMEN	International sizes	Size	Height	Chest	Waist	Hips	Outside leg	Inside leg
Normal	XS	34	168	80-83	64-67	89-92	106	78
		36	168	84-87	68-71	93-96	106	78
	S	38	168	88-91	72-75	97-100	106	78

3XL	120-126	52/54		60/62

AirTex

With a resistant, net-like Dyrnaff structure, AirTex allows air to flow freely, keeping you cool even at higher temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding.

Aniline leather

Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one.

Breathability

Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.

Azo dyes

These may not be used in coloured outer materials since they can break down into carcinogenic amines.

Ventilation

Various materials and technologies are used to improve air circulation and regulation of body temperature.

Categories:
1 arrow: numerous systemzips to assist ventilation
2 arrows: specific materials used for improved ventilation
3 arrows: outstanding ventilation

BMW climate membrane

A functional membrane that meets BMW standards and is breathable, waterproof and windproof.

Carbon

High-strength carbon fibre that is 30% lighter than glass fibre and superior in terms of safety performance.

CE test mark

The CE (Conformité Européenne) mark indicates that the product complies with European Union safety directives.

ceramapace print

ceramapace technology offers unparalleled protection thanks to its unique composition – a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion resistance without impairing flexibility or breathability.

coldblack

Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.

Cordura 500

Nylon yarn consisting of 100% polyamide. The manufacturing process involves regaining and weaving the cut polyamide fibres. Their melting point is 210°C.

Expanding pleats

The upper material is sewn onto the stretch fabric in a corrugated form. This allows the compound to stretch, making the tear-resistant outer material even safer.

Design

The characteristics of BMW design include the use of classic shapes and colours.

DuPont Coolmax

DuPont Coolmax consists of hollow fibres which transport humidity to the outside very quickly by capillary action, making the material dry 50% faster than cotton.

Dynafit

A highly tear-resistant polyamide yarn that's even more robust than Cordura 500/700 and resistant to high temperatures.

Dynatex

Fabric made of Dynafit. Tear-resistant and extremely robust, its melting point is 290°C.

Glass-fibre reinforced plastic (GFRP)/carbon-fibre reinforced plastic (CFRP)

The individual fibres (glass, carbon, glass fibre) can be mixed in varying proportions as required. By changing the orientation and position of the fibres, different characteristics can be achieved – for example: low weight, high strength, high rigidity, low heat expansion, effective insulation and outstanding safety performance.

GOORE-TEX®

A membrane made of teflon (polytetrafluoroethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapour molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

GOORE-TEX® XTRAFIT

In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

Hydrophobic treatment

A treatment which renders leather water-resistant. BMW uses the wet immersion technique. During this process, only the leather fibres are coated, to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years.

HyperKevlar system

The HyperKevlar water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 6 to 12°C compared to the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

Insert

A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

Full-face helmet

A helmet that encloses the head completely.

Open-face helmet

An open-face helmet with no chinguard or visor.

Kangaroo leather

Bossing fine skin fibres, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

Kevleptec

A membrane made of Kevlar and PA fibres which enhances Kevlar's already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

Laminato

A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spirals, and is particularly suited for use with all-weather membranes. Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

Leather

Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

Material strength

The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength.

Categories:
1 star: average
2 stars: good
3 stars: exceptionally hard-wearing in all areas

Motorcycle-specific cut

This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

Nappa leather

The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

Nickel-free accessories

All BMW Motorrad buttons and zips are nickel-free to protect the skin.

Nubuck leather

A highly breathable leather with a slightly roughened surface, for a smooth, firm grip.

Nyspan

A bi-texture fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

Off-road helmet

A helmet with a chinguard and sunshield but no visor.

PC/PVC

Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/lly in leather processing.

3-Perform

Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW climate membrane.

Phase change material

The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

PORON

A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

ProTechWool

A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

ProtectionGuard

Combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

Protectors

The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors are certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size.

NP2: high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).

NP Pro/NP Pro back protector (long): will replace the previous NP2 back protector in new suits from 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 level 2 (abrasion protection). The long version measures around 7 cm longer and is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time.

NP Pro chest protector: can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions) Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the middle area for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size.

NPL: lighter protection designed specifically for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.

Seamless bonding technology

This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam, and keep their shape over a long period.

Serati

Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

Shape-Shift™ technology

This shape-shifting technology uses a partition in the reservoir to keep the drink tube flat even when the two-litre container is full.

Safety, active and passive

Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

Z-liner

Here, the membrane is like a lining "suspended" between the outer material and the lining itself.

	BMW climate membrane		Windproof
	GOORE-TEX®		Reinforced material
	GOORE-TEX® windstopper		Removable protectors
	Fit Helmet shell in a range of sizes		Retrofittable protector.
	Neck strap		Reflective material
	Ventilation		Leather
	Double-glazed visor		Cordura
	Carbon		Dynatec
	Double-D fastener		Waterproof, dirt-repellent overshoe
	Material strength See index for details.		Waterproof pocket
	Warm weather		Removable waterproof insert
	Transitional weather		Integrated storm hood
	Cold		Coldblack
	Ventilation See index for details.		Special women's cut
	Waterproof		Extremely light weight
